Experience

2011-2022

School No. 21, Olot District, Bukhara Province

Between 2011 and 2022, I studied at school No. 21 in Olot Uman, Bukhara Region. I studied IT field by taking online courses during my school days. In this period to Linux I got interested and started learning Linux. To many programming competitions during the school period I participated (District, Province, Republic, International). In the meantime, I made my way I found it and started working on it

2022 so far

Tashkent Amity University Albison

Frontend programming in Albison at Tashkent branch of Amity University in India I passed the exam and am currently studying. System Administration and I learned Linux on my own out of curiosity and it has become my favorite field.

Projects

Pallab Startup
OINIX OS

In the present time

Tashkent, Shaikhontohur

Currently, I am studying online and offline IT courses. OINIX open source I am working on OS.

I am a hardware practitioner. I write articles about Linux development in Uzbekistan. I received international certificates from Google, Microsoft Stanford,

My interests

1. Traveling
2. Open source projects
3. Linux DE customization
4. Flutter UI

My future goals; Starting my own IT startup. Good in my field to be an expert. Development of Linux in Uzbekistan
